

Reduces cleaning
time by 90%

Protects against
limestone and soap
residue build-up

No detergents
required

Long-lasting
protection
5-year warranty

Premium surface treatment for easy to clean glass and other non-porous materials

IGP is an easy to apply glass coating with hydrophobic (water repellent) and oleophobic (oil repellent) properties.

It was developed and optimized to protect glass by minimizing the adhesion of limestone and other residues, thus facilitating the cleaning process.

Protects the glass reducing the cleaning time by up to 90%!
